To whom it may concern:

RE: ZTI, LLC and ZACK TANNER

I gladly provide a letter of reference as it's the least we can do for all Zack Tanner has done for us over the years.

I have personally worked with Mr. Tanner over the last 20 years. MPT does minor renovations and repairs. We do not engage in projects involving complex swimming pool or waterproofing issues without Zack's involvement. I have been in the swimming pool industry for 30 years and have never seen anything even close to Zack's knowledge base. Whether the issue is a complex pool renovation, a waterproofing concern, a City government project, an engineering assignment or some other issue we need help with, Zack has always been there for us. He knows his business to say the least.

We have performed various projects together, or have asked his advise should we endeavor into projects on our own. I truly believe he is the most knowledgeable person in his field of expertise

If you are lucky enough to have found him for your project, I would listen to what he has to say and do it! I will admit though he is not the cheapest guy in town, but over the time his recommendations will cost less as it would be done once.

I would gladly field any calls personally regarding my comments, his work ethic and or any questions you may have concerning Zack Tanner and ZTI, LLC. They are simply VERY GOOD at what they do.

Respectfully,

Carlos Hernandez, Owner
